

## Client Apex Contractors

### Nature of client business

Established in 1990, Apex Contractors Ltd are specialist fit-out and refurbishment contractors operating in both the private and public sectors.

The company has twice featured in the Fast Track 100 and has won the employer of the year in the London Construction Awards.

The project values undertaken range from £250,000 to £10m with approximately 75% of their business being generated through their existing client portfolio.

### Scope of job

The works comprised of the internal fit out and refurbishment of the central wing in Mid Kent College's Medway Campus.

A series of relocated 'commercial activities' were incorporated into the Central wing. A new entrance with ramp, steps and glass canopy was created from the reception pavilion plaza into a reception which houses a travel agency, hair and beauty salon and a restaurant. The area also includes a new kitchen, office, WC's and stores. On the first floor is a series of new therapy suites with a rest area, WC and shower room.

**Location:** Mid Kent College Gillingham

### What the project entailed

Having stripped out and modified some of the existing services to suit the new layouts, we installed new heating and cooling along with associated controls. The work included the installation of condensate drainage, ventilation, hot and cold water services and installation of the over door heater. Further we installed a fire alarm interface and liaised with electrical contractors, kitchen installation specialists and building control teams.

**Job Value:** £180k

### What we brought to the job

Apex contractors were awarded the works on a tender basis.

Adcock were appointed because of our experience, competitive pricing and our long term relationship with Apex.

### Equipment installed

Mitsubishi Electric ceiling cassettes and condensing units were installed in all of the newly fitted areas including the hair and holistic salon, pedicure and therapy suite and the rest area.

Mitsubishi Electric Lossnay units, which provide fresh air ventilation, were installed in the hair salon, changing room, catering and drinks store and shower room.

A Biddle air curtain was installed over the reception entrance.

### Testimonial

*As usual Adcock's delivery on this project was a huge factor in getting it handed over on time and within a very demanding 10 week programme. Their staff willingness to go that extra mile was a huge factor in achieving this and this has been recognised by the client with the prospect of more projects on the horizon.*
