COVER AND WARRANTY

FLEXIBLE
SERVICE TO SUIT YOU

www.adcock.co.uk/advantage

At Adcock, we do all that we can to provide a total service and helping to spread the cost of replacement refrigeration or air conditioning solutions offers you many great benefits. Our unique Advantage payment option scheme is not only popular with those that simply prefer to keep their capital costs down but it also helps when those unexpected problems arise, such as:

UNFORESEEN BREAKDOWN

Sometimes, when breakdown occurs, it is more cost effective to replace systems rather than repair them

NEW LEGISLATION

Recent changes to the law (such as the current R22 refrigerant replacement law) requires the immediate update of systems

GROWING ENERGY BILLS

Your dated system is costing more and more to run each year so it makes more sense to replace it to improve efficiency AND save money

But not everyone budgets for unforeseen costs and more and more customers, from blue chip companies to small growing businesses, are now choosing a simpler way to pay for equipment replacement.

MORE GOOD REASONS TO TAKE ADVANTAGE!

- 1 You can update outdated systems with the latest technology sooner rather than later
- 2 Keep your capital in the bank for business use
- 3 Gives you flexible monthly payments to suit your needs
- 4 Your new system will include full manufacturer's warranty
- 5 You will have full maintenance cover for the entire duration of your repayment term
- 6 ADvantage gives you significant tax relief against costs during the lease period
- 7 Taking ADvantage will not affect any existing credit lines and above all, you will have a brand new, highly efficient system that will significantly reduce your energy costs, reduce carbon emissions and increase productivity.

NOW THAT'S WHAT YOU CALL AN ADVANTAGE!
